

# Window Blind

## VAP® Components

Lightweight CFRP window plug for converted freighters  
Up to 300 pounds weight saving by replacing acrylic windows

- ✓ Weight reduction up to 50% compared to metallic Window Blind design
- ✓ Fuel savings will pay the conversion in a short operating period
- ✓ Simple Replacement (for installation OEM retaining system is used)
- ✓ Reduction of inspection time and costs

### Key Facts

- Proven process reliability
- Cost efficient tooling concept for variable geometries
- Aerodynamic surface finish
- Full process control and quality assurance
